

Opportunities in AMEC

Position: Occupational Hygienist Lead / Hazardous Materials Specialist

Division: Earth & Environmental

Job Location: Regina, SK

Job Reference#: 5785

AMEC Earth & Environmental (AMEC) is a leading full-service environmental engineering and construction/remediation services firm in North America, providing environmental and geotechnical engineering and scientific consulting services.

AMEC (LSE: AMEC) is a focused supplier of high-value consultancy, engineering and project management services to the world's energy, power and process industries. With annual revenues of over £2.6 billion, AMEC designs, delivers and maintains strategic and complex assets for its customers. AMEC's Natural Resources, Power and Process and Earth and Environmental businesses employ over 21,000 people in more than 30 countries globally.

AMEC offers competitive salaries along with a complete benefits package and a variety of Training and Development Programs to help you develop the skills you need to succeed in your chosen career path. Additional information can be obtained from our website at www.amec.com.

AMEC Regina's – Occupational Hygiene and Safety department has experienced exceptional growth and is currently recruiting for an experienced **Occupational Hygienist Lead / Hazardous Materials Specialist**. You will have a solid background in hygiene, safety, hazardous materials assessment and abatement, indoor air quality assessment and/or occupational monitoring. You will be part of a diverse and well respected team of professionals and technologists with the opportunity to work on exciting and challenging projects. While working out of our Regina office, the successful applicant will have the opportunity to work closely with other hygienists and OH&S professionals throughout AMEC, in Canada and abroad.

The position offers exceptional opportunities for professional and personal growth.

Duties:

- Manage, develop and grow an existing team of dynamic professionals.
- Lead team members in business development and marketing, with the aim to grow the diversity and productivity of the group.
- Work with other business units, supporting their need for Occupational Hygiene and Safety and

marketing the skills/capabilities of other units to Occupational Hygiene and Safety clients.

- Prepare proposals, SOQ's, etc., individually and within a team environment. The team might consist of other environmental investigation professionals, or professionals from other business units, including infrastructure, mining, geotechnical or materials divisions.
- Work with the unit manager to track and forecast the group's productivity and billable time.
- Support the Unit Manager in achieving business targets and strategic initiatives of the business unit.
- Track and manage accounts receivable (A/R) and work in progress (WIP) for the Group.
- Provide additional capabilities with regards to senior technical review and leadership in employee health and safety programs.

Qualifications:

- Post secondary education in Occupational Health and Safety or Occupational Hygiene
- Certification as a CRSP (Canadian Registered Safety Professional), or Registered Occupational ROH (Registered Occupational Hygienist) or CIH
- 8+ years experience in Occupational Hygiene and/or Environmental Health and Safety field.
- A proven track record in managing professional staff.
- A solid foundation in the business consulting fundamentals.
- Initiative, enthusiasm and commitment to technical excellence.
- Strong interpersonal, oral and written communication skills.
- Solid experience in business development (proposal development and marketing activities).
